“

I joined MSc Healthcare Management program with a desire to complete it within the scope of good scientific interest and the affordable price.

The MSc program provided an opportunity to further explore both my academic and professional interests with the research.

”

Dr. Muath Mamdouh Mahmud
MSc Graduate | Surgery Resident

WELCOME TO SBS SWISS BUSINESS SCHOOL

SBS Swiss Business School - Middle East provides students with an opportunity to study international university programmes while living in Middle East countries. Our main goal is to provide all our students with a quality, cost-effective education and we pride ourselves in maintaining the highest academic standards.

SBS Swiss Business School has a good understanding of the local market and immense amount of experience in managing education since 1998. We have explored the Middle East market and found ways to successfully promote the fully accredited, approved and recognized curriculum. Our courses are delivered by Western qualified lecturers holding their PhD's and drawn from academic and bearing relevant industrial experience.

VISION

SBS Swiss Business School aims to become Switzerland's leading business school, recognized for its innovative contributions to business and management as well for its accomplished and dedicated faculty in a multi-national-cultural environment.

MISSION

SBS Swiss Business School is dedicated to foster academic excellence and student achievement on the graduate and undergraduate level in business and management. Its mission therefore is to provide students with a strong academic foundation with access to various specialized knowledge bases and prepare them to become productive, competent professionals, and responsible citizens in a diverse, dynamic global arena.

SBS Swiss Business School has offered me a lifetime opportunity through its remarkable MSc in Healthcare Management program. As a Blood Bank Laboratory Technologist, I have always wanted to start my own practice and run a laboratory but was always anxious about managing a healthcare facility, especially with the limited knowledge of the business world I had back then. In addition to providing a wide insight into many aspects of healthcare, this MBA/MSc program taught me valuable management skills that characterized a turning point in my life.
